

## The fast 2-station thermal fiscal printer TM-T260F

With its 2-station thermal printer, EPSON provides high-speed printing of receipts and journals. The specialist for fiscal POS solutions reaches speeds of 150 millimetres per second when printing receipts and 100 millimetres per second for journals. What was chiefly the domain of dot matrix printers up to now is no longer a problem for the new thermal printer: the simultaneous printing of receipt and journal—and at a speed of 100 millimetres per second. This makes it considerably faster than a dot matrix printer and much quieter, too.

### User-friendly, compact and versatile

Like all EPSON cash register printers, the TM-T260F is also really simple to operate. Thanks to its functional front-loading system with the tried and tested drop-in method, the receipt roll can be changed in a jiffy. When one of the paper rolls is nearly empty, paper sensors let the cash register staff know about it in good time. This means that a replacement roll can be kept at the ready well in advance. In addition, the TM-T260F features an integrated auto cutter, which cuts each receipt quickly and cleanly.

Requiring a shelf space of only 14 x 30 cm, the new thermal printer is so compact and takes up so little room that it is suitable for use in any shop fittings. Printing of receipts and journals is virtually silent and the needle-sharp print quality makes good reading.

The TM-T260F is sold without interface and in the various countries exclusively through competent, local system integrators. They equip the printer with the appropriate fiscal module and register it with the appropriate public authorities.

With the TM-T260F, EPSON is adding a new specialist solution to its successful printer range, that stands for really fast printing and top print quality in fiscal POS solutions. This means that the new thermal printer is ideally suited to retail chains expanding to countries with a fiscal POS.

*The fiscal specialist: EPSON TM-T260F*

*A child's play: the „drop-in“ paper load*

*Easy to operate and always in sight is the journal printout*

*Also in „dark grey“ fast, quiet and beautiful*

## Features of TM-T260F

## Your Benefit

High-end thermal print technology	Quiet printing for a convenient atmosphere in the cash zone; Printer can also be used in high-class shops; avoids disturbing the staff and the customers at POS
Receipt and journal printing in a slim housing	Saves space; flexible and versatile; can be used in nearly all retail segments
Receipt printing speed of up to 150 mm/s or 47 lps	Saves time at POS during the cash procedure; avoids customer queues in the cash zone; fast print of sharp bar-codes and logos
Prepared space for fiscal module	The smooth and slim housing is not influenced by fiscal board
Compact footprint, 14 x 30 cm	Saves space on the counter that can be used for POS revenue
Functional and smooth housing	All components of the printer are easy to reach and to clean
Razor sharp printing of graphics and fonts	Gives a perfect image of the shop, coupons and logos can be highlighted
Horizontal und vertical bar-code printing	Barcodes can be used for stock or logistic applications
High reliability: MCBF: 37 Mio. lines Auto cutter: 1 mio. cuts	The high reliability results in a low error ratio and avoids failures of cash systems due to printer problems; excellent TCO; avoids demotivation of cashiers
Easy drop-in paper loading from front side	Time saving at the POS and error-free change of roll paper as well as a short training period of the cashier staff
Integrated paper cutter	The sharp cut adds to the clean image of receipt paper; avoids dust from receipt paper and increases the reliability
Colour „cool white“ or „dark grey“	Fits to all actual system colours
Small paper width of 60 mm	Saves money due to cheaper price per roll
Supports the well known ESC/POS code for POS-printers	Ensures compatibility with all EPSON POS-printers and peripherals; offers flexibility for future expansions
An EPSON product	The performance of a strong partner, wide experience and support, compatibility to all EPSON peripherals

## Technical Data EPSON TM-T260F

<b>Printing method</b>	Direct thermal on receipt and journal 203 x 203 dpi
<b>Print Fonts</b>	Font A: 11 x 24 Font B: 9 x 17
<b>Character size</b>	Font A: 1,25 mm x 2,50 mm Font B: 0,875 mm x 2,0 mm
<b>Character sets</b>	95 alphanumeric, 128 x 15 graphic
<b>Characters per line (60 mm)</b>	Font A: 40 Font B: 49
<b>Barcodes</b>	UPC-A, UPC-E, JAN13 (EAN), JAN6 (EAN), CODE39, CODE93, CODE128, ITF, CODABAR
<b>Print speed</b>	Receipt: up to 150 mm/s Journal: up to 100 mm/s Simultaneously: up to 100 mm/s
<b>Paper</b>	Thermal paper width: 59,5 +/- 0,5 mm Roll diameter max: 63 mm
<b>Interfaces</b>	Special connector with data interface and cash drawer functionality (depending on country) 4-pin connector for 24 V DC input power
<b>Buffer/Memory</b>	40 Byte or 4 KB (other memory depend on fiscal board)
<b>Features included</b>	"Drop-in" paper load Auto cutter „partial cut“ "Paper end " and "Paper near end " -sensors for receipt and journal 3 cover sensors
<b>Colour</b>	EPSON „cool white“ or „dark grey“
<b>Reliability</b>	MCBF: 37 Mio. lines Auto cutter 1 Mio. cuts
<b>Dimensions</b>	W = 140 mm, H = 200 mm, D = 300 mm
<b>Weight</b>	Ca. 1,8 Kg (without paper/fiscal module)
<b>EMI Standard</b>	EN55022, EN55024
<b>Safety</b>	EMC and safety standards or approval for fiscal law will be certified by the local partner based on the test report after installation of the finished fiscal module.
